

RESIDENTIAL SYSTEMS

NORTHWEST RAILING
DISTRIBUTORS INC.

Railcraft residential railing systems are engineered to achieve ultimate strength while providing a system that is aesthetically pleasing. By using high-strength alloys, Railcraft products effectively replace wood, composite, vinyl and steel products with weather resistant, powder coated aluminum.

- ▣ Finishes using TGIC free factory applied, thermo set powder coating.
- ▣ A limited 20 year residential warranty.
- ▣ Easy installation. (No special tools required.)
- ▣ Practical designs for any exterior guardrail, deck rail or fence application.
- ▣ Low maintenance products that never need re-painting.
- ▣ Seven standard colors, eight custom colors, five metallic colors and custom color matching.
- ▣ Architecturally pleasing designs.
- ▣ Excellent weather resistance.
- ▣ A choice of twelve top rail profiles that offer clean and elegant lines.
- ▣ A component system that makes shipping cost effective and minimizes freight damage. Fully welded systems are also available.
- ▣ Interchangeable inserts of glass, aluminum and/or panel inserts that are also adaptable into the aluminum frame.
